EXPERIENCE

Pixtop Media Solutions Pvt Ltd (Webmaffia)

Full Stack Developer

Mumbai, India

Feb 2026 – Present

- Built and maintained a large investor relations web portal with content managed through a CMS, including multi-tab layouts and PDF file support.
- Created reusable UI components with smooth animations that work well on both desktop and mobile devices.
- Created Strapi CMS with MySQL, setting up content types and APIs for dynamic data management.
- Delivered end-to-end features from Figma design handoff to production deployment across multiple release cycles.

Open Source Contributor

Community Contributor

Aug 2023 – Jan 2025

- **LinksHub**: Improved accessibility (WCAG 2.1) and fixed 10+ UI bugs during **Hacktoberfest 2023**.
- **AI-Fusion**: Enhanced UI/UX using TypeScript, optimized dark mode, and implemented card sorting, improving navigation speed by 25%.
- **Namespace**: Improved responsiveness, fixed navigation issues, and enhanced mobile experience.
- **React-native-authkit**: Created comprehensive README for RTK Query Auth Template, boosting developer onboarding speed.

PROJECTS

ShopVerse: Implemented authentication (email/password + Google) and real-time Firestore sync. Developed wallet, rewards, and orders modules, **boosting user retention by 15%**. Optimized Core Web Vitals by reducing LCP from 3.8s to 2.1s.

MedGuide: Adapted an ML-powered diagnostic tool into a clinician-friendly interface, improving diagnostic accuracy by 20% and enabling real-time symptom input via Flask UI.

LabourServices: Developed a job-matching app using Ionic + React, connecting 50+ workers with customers. Integrated real-time feedback and ratings to ensure service quality.

SKILLS

Frontend	NextJS, ReactJS, Redux Toolkit, Tailwind CSS, HTML5, CSS3
Animation	GSAP, Framer Motion
Languages	JavaScript (ES6+), Python
Backend	Strapi, Firebase (Auth, Firestore, Storage), RESTful API, Node.js
State Management	Redux, Redux Toolkit, Context API
Tools	Git, GitHub, Figma, GitHub Actions
Concepts	CI/CD, Accessibility (WCAG 2.1), Core Web Vitals, Performance Optimization

EDUCATION

Atharva College of Engineering

B.E. Computer Science; GPA: **9.06**

Mumbai, India

Jan 2021 – May 2024

ACHIEVEMENTS & CONTRIBUTIONS

AI-Driven Healthcare Application – ICSTEMSD2024: Developed a symptom analysis and medication engine with vital monitoring for personalized dietary recommendations.

Best Project of the Session – (MedGuide): Awarded at Projectathon 2.0 (National Level Competition)

Projectathon Volunteer: Coordinated participants and managed event operations for 100+ attendees in a national-level competition.
